

COMPANY SAFETY, QUALITY AND ENVIRONMENTAL MANAGEMENT POLICY

The Company has established SAFETY, QUALITY AND ENVIRONMENTAL MANAGEMENT POLICY to provide healthy and safe working conditions to ensure prevention of human injury or loss of life and damage to marine environment, ship and property to maintain a safe and pollution-free operational practices which comply the national and international regulations together with the relevant standards and guidelines to ensure quality of the operations that meets the clients requirements.

IMZA MARINE DENIZCILIK A.S. is committed to providing a safe, secure and healthy working environment both afloat and ashore for all of its employees and for all who have reason to be on or about the vessels under their management. **IMZA MARINE DENIZCILIK A.S.**'s target is that its vessels be operated with zero injuries.

IMZA MARINE DENIZCILIK A.S. attaches the utmost importance to the preservation of the environment and is determined to ensure that every person working for or on its behalf is made aware of its concern and does their utmost to achieve its target; zero pollution.

IMZA MARINE DENIZCILIK A.S. defines safety and environmental excellences as; "**NO HARM TO ANY PERSON, AND NO DAMAGE TO THE ENVIRONMENT OR PROPERTY**".

This Company Manual explains and conducts the Company's management system in respect of the safe operation of ships for environmental management and quality assurance.

The contents of the Manual have been reviewed and made compliance with the requirements of ISM Code, ISO 9001 (2015), ISO 14001 (2015) and ISO 45001 (2018) Standards.

IMZA MARINE DENIZCILIK A.S. is committed through continuous efforts to improve environmental performance in all areas required by the international regulations, laws and Company's IMS towards a cleaner environment, and to ensure:

- Pollution prevention that emphasizes source reduction, including necessary funding and human resources, to effectively maintain the on-board systems, equipment and components.
- Continuous reduction of environmental risks.
- Sharing information on environmental performance with external stakeholders.

This policy covers pollution from the following sources:

- Oil, associated products, and chemicals, sludge, bilge water, tank cleaning residue;
- Noxious liquid substances;
- Sewage;
- Dangerous goods;
- Garbage;
- Ballast water (including the transfer of micro-organisms);
- Cargo vapour and engine exhaust emissions;
- Refrigerants, halons and chlorofluorocarbons (CFCs);
- Noise; and

- Anti-fouling paints.

The Company's goal is to achieve ZERO spills through continuous improvement.

For achieving this goal, the Company:

- Complies with all applicable environmental laws, regulations and requirements and applies responsible standards where laws, regulations and requirements do not exist.
- Responds quickly and effectively to environmental incidents resulting from its operations, in co-operation with industry organizations and authorized government agencies.
- Assesses all identified risks to the environment and establishes appropriate safeguards.
- Shows concern and respect for the environment, emphasizes every employee's responsibility in environmental performance and fosters appropriate operating practices and training.
- Undertakes appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this Policy.
- Conducts and supports research to improve understanding of the impact of its business on the environment, to improve methods of environmental protection and to enhance its capability to make operations compatible with the environment.
- Manages its business with the goal of preventing environmental incidents and of controlling emissions and wastes to below harmful levels.
- Designs, operates and maintains facilities to this end.
- Shares its experience with others to facilitate improvements in industry performance.

IMZA MARINE DENIZCILIK A.S. is committed to pursuing its targets of zero pollution/zero injuries through a process of continual operational improvement, by regularly setting target, monitoring performance, analysing incidents that occur, identifying root causes and refining procedures accordingly.

Types of ships under management: CRUDE OIL / PRODUCT/CHEMICAL TANKERS. Company objectives are to;
